Wendover Air Force Base,
Medical Supply and Issue
Building (~~also~~ Medical
Equipment Storage)
(Building No. 2604)
HABS No. UT-125-~~HH~~ BJ
Page 1

Constructed in 1943 as a "Mobilization," "Semi-Permanent" type structure, this building contains 4356 square feet and was built at a cost of \$8,500. Interior spaces were assigned to such uses as "Dental Lab Prosthetics," "Specialized Medical Lab," "Air Force Veterinary," "Dental Clinic," "Medical Supply and Issue," and "Medical Administration."

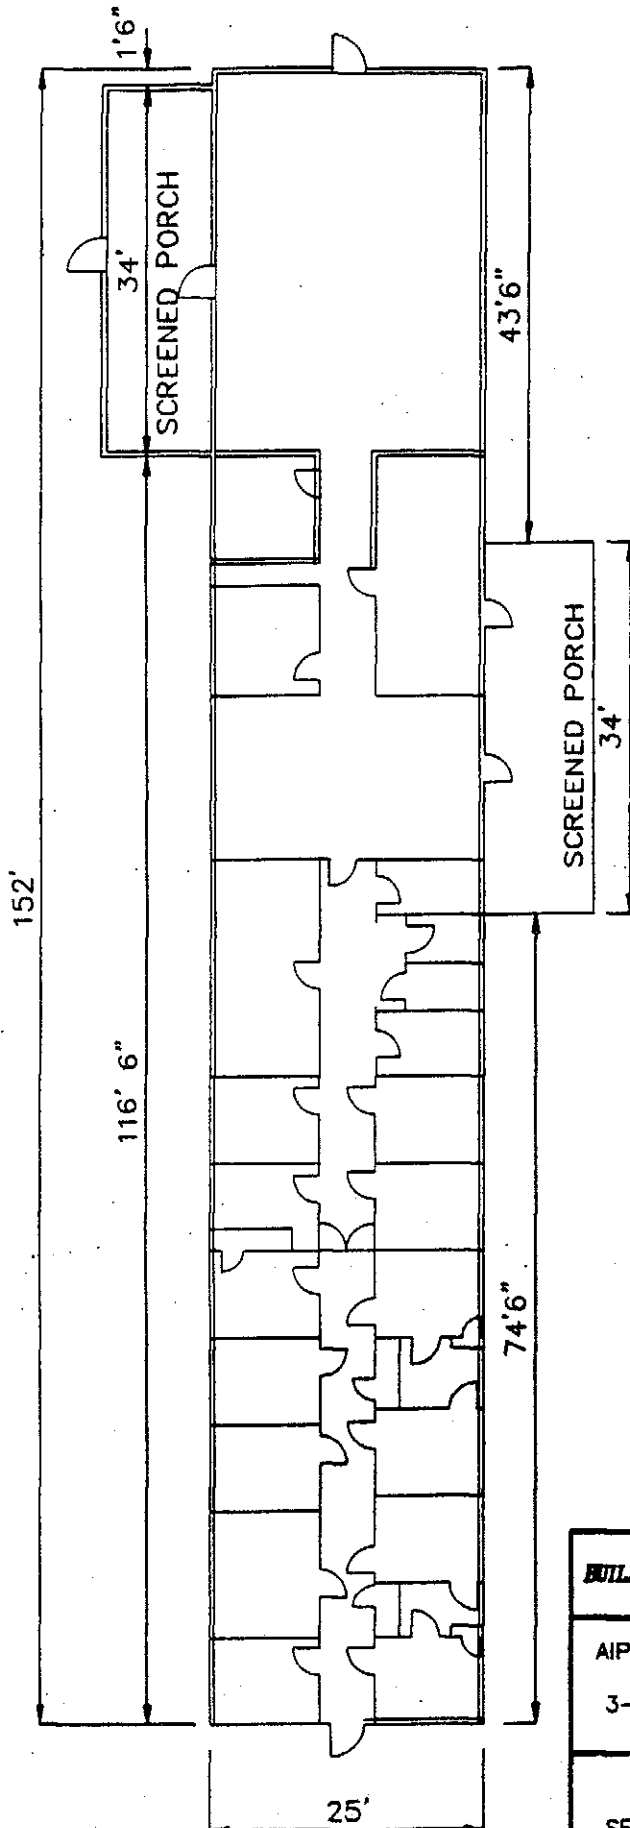

Building 2604 is a 25-foot-by-152-foot rectangle with two 9-foot-by-34-foot offsets. The building has a concrete foundation, wood frame floor and walls and a gabled roof with composition shingles. The exterior is clad with horizontal wood siding. There are four roof vents atop the ridge. The offsets, one along each of the long walls, have similar materials but shed roofs. The windows are 8/8 double-hung sash units and the doors are wood with horizontal panels. The interior included a kitchen and restrooms. Although in need of minor repairs and paint, the structure appears to be sound.
